

## Product information

The InsertionRail 2.0 Cover 30 acts as a horizontal cover for the InsertionRail 2.0 for 30 mm frame heights and is clicked onto the mounting rail at both the top and bottom end of the module block. This rail cover prevents the accumulation of dirt or water in the insertion rails and at the same time contributes to an aesthetically pleasing overall appearance. Material: Aluminium EN AW-6063 T66, black anodised. Anodised finish may show slight signs of scratching due to packaging and transport.
